

## Electric Strike Lock

### AL-130 NO

#### Description

#### Parameters

	Standard, concealed installation	Working Voltage	DC12V input
	Power-off to lock	Working Current	240mA
	No time-delay function	Holding Force	250kg
	90 degrees swinging door suitable for wooden doors	Weight	0.37kg
		Lock jaw size	29*17*11mm
		Lock body size	150*28*35mm

### AL-130 NC

#### Description

#### Parameters

	Standard, concealed installation	Working Voltage	DC12V input
	Power-on to lock	Working Current	240mA
	No time-delay function	Holding Force	250kg
	90 degrees swinging door, suitable for wooden doors	Weight	0.37kg
		Lock jaw size	29*17*11mm
		Lock body size	150*28*35mm

### AL-131 NO

#### Description

#### Parameters

	Wide-mouthed, concealed installation	Working Voltage	DC12V input
	Power-off to lock	Working Current	240mA
	No time-delay function	Holding Force	400kg
	90 degrees swinging door, suitable for metal doors	Weight	0.38kg
		Lock jaw size	45*17*11mm
		Lock body size	150*28*35mm

### AL-131 NC

#### Description

#### Parameters

	Standard, concealed installation	Working Voltage	DC12V input
	Power-off to lock	Working Current	120mA
	No time-delay function	Holding Force	400kg
	90 degrees swinging door, suitable for metal doors	Weight	0.38kg
		Lock jaw size	45*17*11mm
		Lock body size	150*28*35mm

AL-132 NO

	Description	Parameters	
	Special, wide-mouthed, concealed installation	Working Voltage	DC12V input
	Power-off to lock	Working Current	240mA
	No time-delay function	Holding Force	400kg
	Couter locking function with the extended panel	Weight	0.41kg
	90 degrees swinging door, suitable for metal doors	Lock jaw size	45*17*13mm
		Lock body size	240*25*35mm

AL-132 NC

	Description	Parameters	
	Special, wide-mouthed, concealed installation	Working Voltage	DC12V input
	Power-off to lock	Working Current	240mA
	No time-delay function	Holding Force	400kg
	Couter locking function with the extended panel	Weight	0.41kg
	90 degrees swinging door, suitable for metal doors	Lock jaw size	45*17*13mm
		Lock body size	240*25*35mm

Glass door lock

AL-130 NO

	Description	Parameters	
	Concealed installation	Working Voltage	DC12V input
	Power-on to lock	Working Current	240mA
	No time-delay function	Holding Force	250kg
	90 degrees swinging door,suitable for frameless glass doors	Weight	0.37kg
		Lock jaw size	29*13*11mm
		Lock body size	150*28*35mm
